

IT
STARTS
WITH
ART!

Les Petits Painters believes a child's early exposure to art promotes activity and development in the brain. Thoughtfully designed art classes are held to stimulate young minds and develop their creativity.

Young kids benefit, as art will:

- develop their imagination
- promote their curiosity
- improve social skills, making friends and getting on with other kids
- boost self-confidence
- help them express their emotions
- discover how to make something ordinary, special
- build problem-solving skills
- teach them how to search for solutions

as they experience beauty, joy and wonder by having lots of positive experiences through fun activities!

Let's Get Your Little One Started.

Classes are held in the neighbourhoods of Hunters Hill and Chatswood.

Ideal for children ages 3-5.

Each class has a maximum of 8 students.
